The information in this document is general and should not be considered a complete description of the Star Capital Group Equipment Protection Program. The description of the Program is summarized. Your company is not an insured, an additional insured, a loss payee, or a third-party beneficiary under this plan and only our interest in the leased or financed equipment is protected. Enrollment in the Program fulfills the insurance requirement in your equipment lease or finance agreement. A separate charge for the Program may be included on our invoice as the line item "Equipment Protection Program," which includes the cost to acquire and maintain the plan on our interest in the leased or financed equipment plus an administration fee that may include a profit component. You will be billed for the Program until you cancel your enrollment, which can be cancelled at any time if you purchase a policy that meets the insurance requirement and provide notice to us.
